

# Powerprint Request/Online Quickstart Guide

1. Open Powerprint Request/Online.

2. Pick a pen setting (.pen files given by DBP, inc. and installed with software) from the Pen Table dropdown menu.

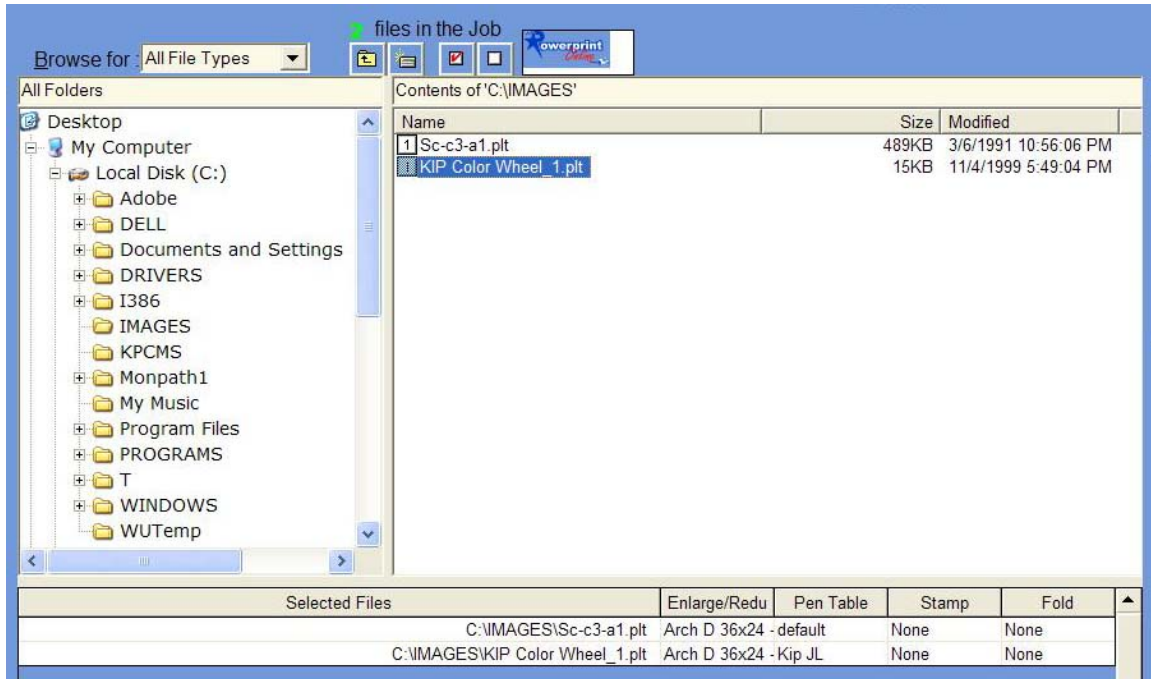

NOTE: **\*\*pen name\*.pen** is to be used for files with raster images in them.  
**\*\*pen name\*\_noR.pen** is to be used for vector only files.

3. Pick a sizing scheme from the Enlarge/Reduce dropdown menu.

4. Navigate to and select desired files for printing.

5. Enter Job Number for accounting purposes.

<b>Requester:</b>	blueMobile
<b>Job Number:</b>	072804-mis_test
<b>Description:</b>	mobile_testOnly

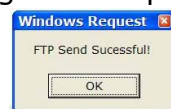

6. Click on "FTP Transfer" to submit to FTP site.

7. Enter printing instructions in "Create Notes" pop-up and click "OK".

8. After the program compresses and submits you files, You will see:

Click "OK" to continue with next job.
